So simple to set-up and use. There's no need for computer classes or instructional DVD's

I know what you're thinking. Another computer ad. Another computer that you'll have to ask your kids and grandkids how to use. You'll hit the wrong button, erase the screen and that will be it. Into the closet it goes. Well, have we got good news for you. This simple-to-use computer was developed and tested by MyGait, the industry leader in making computing easy for seniors. Until now, it was only available in Senior Centers and Retirement Living Communities. Now, for the first time ever, it's available to you.

Easy to use and worry-free. This extraordinary computer comes ready to use right out of the box. All you do is plug it in. Once you're online, the navigation is simple— just press GO! You never get lost or "frozen."

A key part of the Designed for Seniors® GO Computer is that you never have to worry about maintaining your computer... we do it for you...

remotely. So it never slows down, never crashes, never freezes, and you never have to worry about spam or viruses. We eliminate and prevent these problems around the clock— for less than seventy five cents per day. Imagine— never having to call your neighbors or relatives or a "repairman" to come "fix" your computer. You never have

to worry that your emails, files, or photos will be "lost". And in the unlikely event that your computer does develop a problem— we'll send you a replacement absolutely free. And since your data is remotely stored, you'll immediately have access to all of your original emails, files, and photos... instantly. No other computer can do that!

Since it's been created with seniors in mind, the display is easy to read and simple to navigate. All you do is follow the green "GO" button to any place your heart and mind desires. No confusing icons, tool bars, cascading windows, or computer jargon.

"I just received my GO Computer™ and I'm 90 years of age. I am communicating daily with someone in my family via email and sometimes even receive a new picture from them. Between answering emails, surfing through some stores, and playing solitaire online, I am staying busy!."
